DREXLER UNIVERSAL SILICONE

DREXLER Universal Silicones Is an acetoxy-based insulation material curing with humidity in the air.

Applications: The insulation of washbasins, bathtubs, and shower cabins against water.

In the construction sector and manufacturing industry. The filling and attaching of glass, metals, enamels, wooden, ceramics and other construction materials.

Surfaces: All surfaces should be dry, clean, and free from dust and grease. If necessary, use a primer.

Colors: Transparent, white and black.

Storage: It must be kept away from water, frost, and bad weather conditions. It must be kept in wooden pallets and cool and dry conditions. The products that are opened must be consumed immediately. It should be stacked in a maximum of 6 layers. The product's storage time is 15 months if the protection conditions shall comply with the above subjects.

Safety: Keep out of reach of children. The application should take place in well-ventilated rooms so that cross-linker vapors can escape. During vulcanization, a total of %4 acetic acid is released thus this cross-linker vapors should not be inhaled during long periods or in high concentrations. Avoid prolonged contact with skin. In case of any contact with the eyes, rinse immediately with plenty of water and seek medical advice. Avoid contact with food as long as the sealant is uncured.

DREXLER PU FOAM

DREXLER PU FOAM is a multipurpose and single component polyurethane material that becomes hard with humidity.

Application areas: Filling up the spaces and assembling doors and window frames. Filling of big cracks, holes, and spaces. Filling up the spaces at electronic and water installations. At the connection parts of the roof.

Progressing temperature: 15°C - 25°C (it is not recommended if the working temperature is under 50°C because the foam does not get harder).

Surfaces: All surfaces should be dry, clean, and free from dust and grease. If necessary, use a primer. Porous surfaces should be pre-moistened with water.

Application: Shake can 20 to 30 times vigorously before use. Screw the adaptor tightly into the valve. Use the can in the reverse position. Joints and cavities should only be filled %50.

Cleaning: Cured foam can only be removed mechanically or with a PU foam cleaner.

Storage: It must be protected against water, frost, and weather conditions. The shelf life can reduce if the can is stored above +30°C and under +5°C. It must be kept on wooden pallets and cool and dry conditions. You should keep it in upright position. The products that are opened must be consumed immediately. It should be stacked in a maximum of 6 layers. The product's storage time is 15 months if the protection conditions comply with the above subjects.

Safety: Keep out of reach of children. The can should not be thrown into the fire. The foam should be used in well-ventilated areas. Don't smoke, protect your eyes and wear suitable protective clothes and gloves. This can is under pressure, and because of that it shouldn't be exposed to direct sunlight and shouldn't be heated above +50°C as there is a risk of bursting.

DREXLER WALLPAPER ADHESIVE 750

Drexler Wallpaper Adhesive with an enhanced formulation based on methyl cellulose is odorless and free from toxic substances. Its fast and high solubility in water makes it easy to use, while its compatibility with cement and plaster surfaces, along with high resistance to moisture and temperature changes, makes it an ideal choice for professionals.

This product is available in 750g powder packaging and is suitable for installing various types of wallpaper, whether light, medium, or heavy.

Made with methyl cellulose, it provides excellent durability on plaster and cement surfaces. Another key feature of Drexler wallpaper adhesive is its high bonding strength, ensuring wallpaper adheres firmly to the surface.

Once applied and fully dried, it offers outstanding durability against moisture. One of the signs of its quality is that it does not form bubbles under the wallpaper, ensuring a smooth and precise installation.
Easy to use.
